

Your IT Department

We are IT experts for SMEs. BITFEE AG takes on all your company's IT needs. Our client-friendly and well-trained employees are what set us apart. Thanks to our targeted approach and use of the right technologies we create added value for your company.

IT Planning

- We focus your IT infrastructure on your company's specific processes and goals.
- We examine and assess your entire IT infrastructure.
- We stay within budget and help with the set-up.
- We track IT trends and know what you can expect from them.

IT Projects

- We take over the IT section of your business projects (e.g. moves, ERP implementation, acquisitions).
- We develop clear proposals for solutions and realistic cost projections (e.g. for the introduction/replacement of IT infrastructures).
- We evaluate, implement and migrate software and infrastructure solutions.

IT Operation

- We are your IT support.
- We provide simple and personal support to your employees during their daily IT use.
- We operate your IT infrastructure and keep it up-to-date.
